4. First-Aid Measures

4.1. Description of first aid measures

Inhalation: Immediately relocate to a fresh air environment. Rinse mouth with water. If not breathing, give artificial respiration. If breathing becomes difficult, give oxygen and seek medical attention.

Skin Contact: Wash with soap and copious amounts of water. If irritation persists, seek medical attention.

Eye Contact: Immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eyelids with fingers. If contact lenses are being worn, remove lenses and continue rinsing. Seek medical attention.

Ingestion: Rinse mouth with water and seek medical attention.

4.2. Most important symptoms and effects, both acute and delayed

4.3. Indication of any immediate medical attention and special treatment needed

5. Fire-fighting measures

5.1. Extinguishing media

Water spray, carbon dioxide, dry chemical powder/foam

5.2. Special hazards arising from the substance or mixture

Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Upon combustion will result in carbon monoxide, carbon dioxide and nitrogen oxide being released.

5.3. Advice for fire-fighting

No information available

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Use personal protection, Make spills wet to prevent the generation of dust and then, sweep up into a closed container.

6.2. Environmental precautions

Do not discharge into sewer, river, underground water, etc.

6.3. Methods and material for containment and cleaning up

After recovering, wash away spilled area with plenty of water.
