First-Aid Measures 4

4.1 Description of first aid measures

Inhalation: Immediately relocate to a fresh air environment. Rinse mouth with water. If not breathing, give artificial respiration. If breathing becomes difficult, give oxygen and seek medical attention. Skin Contact: Wash with soap and copious amounts of water. If irritation persists, seek medical attention. Eye Contact: Immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eyelids with fingers. If contact lenses are being worn, remove lenses and continue rinsing. Seek medical attention.

Ingestion: Rinse mouth with water and seek medical attention.

- 4.2 Most important symptoms and effects, both acute and delayed
- 4.3 Indication of any immediate medical attention and special treatment needed No information available

5. Fire-fighting measures

5.1 Extinguishing media

Water spray, carbon dioxide, dry chemical powder/foam

- 5.2 Special hazards arising from the substance or mixture Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Upon combustion will result in carbon monoxide, carbon dioxide and nitrogen oxide being released.
- 5.3 Advice for fire-fighting No information available

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures. Use personal protection, Make spills wet to prevent the generation of dust and then, sweep up into a closed container. 6.2 Environmental precautions

- Do not discharge into sewer, river, underground water, etc.
- 6.3 Methods and material for containment and cleaning up After recovering, wash away spilled area with plenty of water.
- 6.4 Reference to other sections Personal protection: see section8

7. Handling and storage

7.1. Precautions for safe handling

Follow good industrial practice in housekeeping and personal hygiene. Wear personal protective equipment as outlined in section 8.

7.2. Conditions for safe storage, including any incompatibilities Store in closed containers in a dry area. Avoid humidity, sunlight and high temperature.

8. Exposure controls/personal protection

8.1 Control parameters Contains no substance with occupational exposure limit value

8.2 Exposure controls Respiratory protection: Protective gloves: Eye protection:	Dust mask or appropriate respirator. Utilize local exhaust ventilation. Rubber Chemical safety goggles.
Other protective equipment:	Wear appropriate laboratory apparel, protect exposed skin.
Occupational exposure limits:	Not established

15. Regulatory information

15.1 Safety, health, and environmental regulations/legislation specific for the substance or mixture <u>EU regulations</u>

<u>EU regulations</u>				
Major Accident Hazard	96/82/EC			
Legislation	Directive 96/82/EC does not apply			
Regulation(EC) No.1005/2009 on substances that deplete the ozone layer	not regulated			
Regulation(EC) No.850/2004 of the European Parliament and of the Council of 29 April 2004 on Directive 79/117/EEC	not regulated			
Regulation (EC) No689/2008 concerning the export and import of dangerous chemicals.	not regulated			
Substance of very high concern(SVHC)	This product does not contain substance of very high concern above the respective regulatory limit (> 0.1% (w/w) Regulation (EC) No.1907/2006(REACH), Article 57).			

Other National Legislation

None especially.

The information given in this Safety Data Sheet does not replace the users own assessment of workplace risk as required by national, state and local health and safety legislation.

15.2 Chemical safety assessment

For this product a chemical safety assessment was not carried out.

16. Other information

The information contained in this SDS is, to the best of our knowledge true and accurate. Any recommendations or suggestions made are without guarantee, since the conditions of use are beyond our control.
