This hair oil serum formula moisturizes and smoothens hair. It reduces hair flies and makes the hair and hair tips look controlled. **ELDEW® PS-203R** is an amino acid derived functional emollient with ceramide type-III mimicking properties. It enhances hair tensile strength, shine, smoothness, and softness. It has a property of depositing on hair and enhances hair surface hydrophobicity. It enhances hair curl/wave definition and hold. This formula is quat-free and silicone-free and suitable for all hair types.
